

End-of-Availability Notice

DPI-CAS

APP-LAYER7

For Internal and Partner release
August 20, 2010

1. Announcement Summary

Riverbed Technology hereby announces the end-of-availability of the DPI-CAS spare and the APP-LAYER7 upgrade effective **immediately** due to lack of supply.

Table 1 identifies the relevant dates for end-of-availability:

Product	Description	End of Availability Date (Last order date)
DPI-CAS	Deep Packet Inspection Adapter PCI-X (CAS)	Immediately (none)
APP-LAYER7	Add Layer 7 application fingerprinting to a legacy Mazu sensor (one per sensor)	Immediately (none)

2. Migration Plan

Please note that DPI-CAS-001 has been introduced in all shipping Cascade CAS and CAX units as of 7/1/10 to replace the end-of-availability DPI-CAS part.

Customers who would like to add Layer 7 application monitoring to a legacy Mazu Sensor or Express can purchase the DPI-CAS-001 part instead of APP-LAYER7.

The new DPI-CAS-001 part requires Cascade version 8.5 or later.

3. End-of-Availability Policy

For information on Riverbed's end-of-availability and end-of-support policy, please see www.riverbed.com/supportpolicy.

4. Additional Information
